

The Bonn-Cologne Graduate School BCGS

The **Bonn-Cologne Graduate School of Physics and Astronomy** is a joint program of graduate studies (MSc. and PhD) between the Universities of Bonn and Cologne.

The BCGS provides mentoring and research internships, **scholarships both for MSc. and PhD students**, travel funds, and a vibrant research environment at the forefront of modern physics.

Research areas at the two departments of Bonn and Cologne span the entire range of current physics; from astrophysics, biophysics, and condensed matter research to nuclear and particle physics, quantum optics, and string theory.
